## **American Railroads (The Chicago History of American Civilization) John F. Stover**

Few scenes capture the American experience so eloquently as that of a lonely train chugging across the vastness of the Great Plains, or snaking through tortuous high mountain passes. Although this vision was eclipsed for a time by the rise of air travel and trucking, railroads have enjoyed a rebirth in recent years as profitable freight carriers.

A fascinating account of the rise, decline, and rebirth of railroads in the United States, John F. Stover's *American Railroads* traces their history from the first lines that helped eastern seaports capture western markets to today's newly revitalized industry. Stover describes the growth of the railroads' monopoly, with the consequent need for state and federal regulations; relates the vital part played by the railroads during the Civil War and the two World Wars; and charts the railroads' decline due to the advent of air travel and trucking during the 1950s.

In two new chapters, Stover recounts the remarkable recovery of the railroads, along with other pivotal events of the industry's recent history. During the 1960s declining passenger traffic and excessive federal regulation led to the federally-financed creation of Amtrak to revive passenger service and Conrail to provide freight service on bankrupt northeastern railroads. The real savior for the railroads, though, proved to be the Staggers Rail Act of 1980, which brought prosperity to rail freight carriers by substantially deregulating the industry. By 1995, renewed railroad freight traffic had reached nearly twice its former peak in 1944.

Bringing both a seasoned eye and new insights to bear on one of the most American of industries, Stover has produced the definitive history of railroads in the United States.

#### **Sylvia Medina:**

As a pupil exactly feel bored for you to reading. If their teacher questioned them to go to the library or even make summary for some guide, they are complained. Just very little students that has reading's spirit or real their leisure activity. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this American Railroads (The Chicago History of American Civilization) can make you really feel more interested to read.
