With the rise in international trade, communication and travel, the world appears to be shrinking. While some people argue that free trade around the world is necessary for the economy, others believe the current trade rules allow rich countries to take advantage of workers in developing countries. This book looks at the impact of globalisation and the debate surrounding global trade. The information comes from a variety of sources, including government reports and statistics, newspapers and magazine articles, surveys and polls, academic research and literature from charities and lobby groups; articles have been tailored to an 11 to 14 age group. Additionally, at the end of each chapter are two pages of activities relating to the articles and issues raised in that chapter.
