“provides a most-needed analysis of the benefits and limitations of the new cultural anthropology.” Bolles

~American Ethnologist, 1994 “groundbreaking” Levinson ~The Teachers College Record, 2008

DECOLONIZING ANTHROPOLOGY is part of a broader effort that aims to advance the critical

reconstruction of the discipline devoted to understanding humankind in all its diversity and commonality.

The utility and power of a decolonized anthropology must continue to be tested and developed. May the

results of ethnographic probes--the data, the social and cultural analysis, the theorizing, and the strategies for knowledge application--help scholars envision clearer paths to increased understanding, a heightened sense of

intercultural and international solidarity, and last, but certainly not least, world transformation. TABLE OF
