*Acidente Vascular Cerebral* é o livro que traduz a experiência da equipe multidisciplinar do Hospital Israelita Albert Einstein (HIAE) no atendimento dos pacientes com acidentes vasculares cerebrais (AVCs). Reconhecendo a importância desse tipo de acidente como causa de incapacidades e de morte, o HIAE estabeleceu um programa de atendimento integrado, a partir de 2004, nos moldes dos melhores *stroke centers* do mundo. Atualmente, esse programa é reconhecido e acreditado pela Joint Commission International como um dos centros devidamente capacitados a atender todo e qualquer tipo de AVC. Conta com o envolvimento de todo o corpo clínico de neurocientistas para o atendimento dos pacientes e para a melhoria contínua dos processos e protocolos, a partir dos resultados obtidos, que são periodicamente revisados.

O livro traz, em seus capítulos, desde a estratégia para a implantação de um protocolo de AVC até o gerenciamento da qualidade de um centro de atendimento aos AVCs, passando pelos inúmeros protocolos e escalas adotadas, bem como pela descrição do papel de cada uma das diversas especialidades envolvidas no processo de atendimento.

A publicação de *Acidente Vascular Cerebral* visa à disseminação do conhecimento e da experiência obtidos pelos diversos especialistas do HIAE, a possibilitar a multiplicação dos centros de atendimento aos AVCs no Brasil, ao intercâmbio de informações e experiências entre os centros e a reduzir ao mínimo os índices de morbimortalidade.
