Essential Chemistry for Formulators of Semisolid and Liquid Dosages Vitthal S. Kulkarni, Charles Shaw
A needed resource for pharmaceutical scientists and cosmetic chemists, *Essential Chemistry for Formulators of Semisolid and Liquid Dosages* provides insight into the basic chemistry of mixing different phases and test methods for the stability study of nonsolid formulations. The book covers foundational surface/colloid chemistry, which forms the necessary background for making emulsions, suspensions, solutions, and nano drug delivery systems, and the chemistry of mixing, which is critical for further formulation of drug delivery systems into semisolid (gels, creams, lotions, and ointments) or liquid final dosages. Expanding on these foundational principles, this useful guide explores stability testing methods, such as particle size, rheological/viscosity, microscopy, and chemical, and closes with a valuable discussion of regulatory issues. *Essential Chemistry for Formulators of Semisolid and Liquid Dosages* offers scientists and students the foundation and practical guidance to make and analyze semisolid and liquid formulations.

- Unique coverage of the underlying chemistry that makes possible stable dosages
- Quality content written by experienced experts from the drug development industry
- Valuable information for academic and industrial scientists developing topical and liquid dosage formulations for pharmaceutical as well as skin care and cosmetic products

From reader reviews:

Barbara Marburger:

Book is written, printed, or created for everything. You can know everything you want by a reserve. Book has a different type. As you may know that book is important thing to bring us around the world. Alongside that you can your reading proficiency was fluently. A book Essential Chemistry for Formulators of Semisolid and Liquid Dosages will make you to always be smarter. You can feel much more confidence if you can know about almost everything. But some of you think which open or reading the book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you trying to find best book or suitable book with you?

Wilma Hines:

The guide untitled Essential Chemistry for Formulators of Semisolid and Liquid Dosages is the guide that recommended to you to see. You can see the quality of the book content that will be shown to an individual. The language that publisher use to explained their way of doing something is easily to understand. The article writer was did a lot of investigation when write the book, so the information that they share to you is absolutely accurate. You also might get the e-book of Essential Chemistry for Formulators of Semisolid and Liquid Dosages from the publisher to make you far more enjoy free time.

Derek McCaleb:

A lot of people always spent their free time to vacation or even go to the outside with them family or their friend. Were you aware? Many a lot of people spent these people free time just watching TV, or playing video games all day long. In order to try to find a new activity honestly, that is look different you can read a book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent all day long to reading a guide. The book Essential Chemistry for Formulators of Semisolid and Liquid Dosages it is quite good to read. There are a lot of people who recommended this book. They were enjoying reading this book. Should you did not have enough space to create this book you can buy often the e-book. You can m0ore very easily to read this book from the smart phone. The price is not to fund but this book provides high quality.

Robert Shaw:

Do you have something that you enjoy such as book? The reserve lovers usually prefer to decide on book like comic, brief story and the biggest you are novel. Now, why not striving Essential Chemistry for Formulators of Semisolid and Liquid Dosages that give your fun preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the oppportunity for people to know world considerably better then how they react when it comes to the world. It can't be claimed constantly that reading practice only for the geeky individual but for all of you who wants to always be success person. So , for all you who want to start studying as your good habit, you are able to pick Essential Chemistry for Formulators of Semisolid and Liquid Dosages become your starter.
