Donald DeYoung's first two volumes of Science and the Bible have been widely popular with children's ministry leaders, parents, pastors, homeschoolers, and teachers. Now this third volume provides even more ideas for demonstrating the order and grandeur of creation to encourage an appreciation of all God has made. The book's thirty dynamic but simple experiments illustrate the laws of nature, teach Bible principles, and affirm God's power as Creator. Each demonstration has a catchy or unusual result, making the Bible truth unforgettable. The clearly explained experiments use common household objects, require little setup time, and are illustrated by pictures and diagrams.
