## Integration of Handicapped Children in Society: Volume 9 (Routledge Library Editions: Children and Disability)

First published in 1975, this book looks at the place of children with handicaps in society, at that time. It argues that in the thirty years previous, a great deal of progress was made in the field of rehabilitation but that the separation between handicapped people and the community was still a challenge. A strong range of contributors discuss approaches to the problem focusing on education, employment, and daily life. Topics covered include the social aspects of integration, through the problems of the multiple-handicapped child, to a survey of disabled students at universities and polytechnics in Great Britain.
