La piedra como nueva materia. (Design e comunicazione) (Spanish Edition)

Enrico Leonardo Fagone

La piedra como nueva materia. (Design e comunicazione) (Spanish Edition) Enrico Leonardo Fagone CTAP tiene entre sus fines la innovación funcional, formal y productiva en los sectores de las Piedras Naturales y las Piedras Artificiales (Composite). En el 2010, CTAP puso en marcha una línea de investigación y desarrollo de nuevos procesos y nuevos materiales cómo eje estratégico para el sector, partiendo de la premisa de minimizar el impacto ambiental a través de la reutilización de desechos de la extracción y de residuos de fabricación, para lo cual decidió contar con Perry King y Santiago Miranda, titulares del estudio homónimo con sede en Milán. Partiendo desde la observación de las nuevas modalidades de extracción y las sucesivas fases de producción, K&MD puso en marcha, como punto de partida, un análisis de las prestaciones y de los usos funcionales y formales que la arquitectura y el sector industrial dan a la piedra. El objetivo es obtener materiales inéditos en lo que se refiere a su concepción, aplicaciones posibles y propiedades técnicas y estéticas.

Peter Landon:

As a pupil exactly feel bored to help reading. If their teacher asked them to go to the library or even make summary for some book, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that looking at is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this La piedra como nueva materia. (Design e comunicazione) (Spanish Edition) can

make you truly feel more interested to read.
