Godlike: The Abomination Adaluncatif Melchizedek

Godlike is a condensed version of an original manuscript which was deemed too intense. It outlines the story of Mathews "christ complex" from a vision he had in 1996 to the present. Included in the unedited book are original rants, essays, and memes- the self replicating ideas which are seeking appendages in the form of his technomiracles. Several inventions are detailed including free energy (Revelations "fire from heaven") and artificial intelligence (Revelations "breathing life into the image of the beast"). Godlike is intended to change the world on a global level and an individual level and to prepare the reader for the original manuscript which details the endtimes events in depth.
