GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology)

Norbert W. Seidler

The book represents a comprehensive review and synthesis of the biomedical literature that spans over a half-century on a single protein called glyceraldehyde 3-phosphate dehydrogenase (or, GAPDH). Due to the protein's involvement in a vast array of cellular activities, GAPDH is of interest to the cell biologist, immunologist, virologist, biochemist etc. The protein has a significant role in fertility, cancer and neurodegeneration, suggesting that this book can be a vital resource for drug development. GAPDH function may provide insight into anesthesia. Furthermore, GAPDH is highly conserved meaning that the protein found in microorganisms, such as pathogens, remained relatively unchanged in evolution. Pathogens use GAPDH as a virulence factor, offering a unique challenge in developing anti-microbial agents that target this protein. To the evolutionary biologist, a book on the multi-functionality of GAPDH provides a focal point for a cogent discussion on the very origin of life.

From reader reviews:

Lizzie Chandler:

Reading a e-book tends to be new life style on this era globalization. With looking at you can get a lot of information that can give you benefit in your life. Having book everyone in this world may share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story as well as their experience. Not only situation that share in the publications. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors in this world always try to improve their talent in writing, they also doing some exploration before they write for their book. One of them is this GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology).

Jill Beery:

Can you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Try and pick one book that you find out the inside because don't judge book by its include may doesn't work this is difficult job because you are frightened that the inside maybe not since fantastic as in the outside search likes. Maybe you answer might be GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) why because the wonderful cover that make you consider in regards to the content will not disappoint an individual. The inside or content will be fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.

Terrance Pitt:

Is it you actually who having spare time subsequently spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something totally new? This GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) can be the answer, oh how comes? A book you know. You are therefore out of date, spending your spare time by reading in this brand-new era is common not a geek activity. So what these books have than the others?

Christopher Evan:

As a student exactly feel bored for you to reading. If their teacher requested them to go to the library or make summary for some book, they are complained. Just little students that has reading's spirit or real their interest. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) can make you sense more interested to read.
