Practical Wildlife Care Les Stocker

Wildlife care and rehabilitation is often on a one-to-one basis and involves a lot of time, care and skill. However, for many years, care of injured wildlife was regarded as a low priority and euthanasia was the recommended option. A lot has changed over the past twenty years and now caring for wildlife casualties is part of everyday life in many veterinary practices.

Following on from the major success of the first edition, this second edition provides even more useful information on wildlife care and rehabilitation. As well as covering a whole range of species, with sections on birds, mammals, reptiles and amphibians, this edition now includes information on many 'alien' species appearing in the British countryside such as wallabies, wild boar and exotic reptiles.

In this edition:

- Essential guidance on handling, first aid, feeding and releasing, and many other disciplines not featured in veterinary or nursing training
- Full of helpful tips from an expert in wildlife rehabilitation who has unparalleled practical experience
- Expanded chapters on the care of all species – particularly casualty badgers, otters and hedgehogs – and more comprehensive guidance on rearing orphaned mammals and birds
- Lots more colour pictures to aid in management and care techniques and the latest information on zoonotic diseases from around the world

From reader reviews:

Bill Bobby:

Information is provisions for folks to get better life, information nowadays can get by anyone from everywhere. The information can be a knowledge or any news even a problem. What people must be consider whenever those information which is from the former life are difficult to be find than now is taking seriously which one is acceptable to believe or which one often the resource are convinced. If you have the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All of those possibilities will not happen within you if you take Practical Wildlife Care as the daily resource information.

Eleanor Gomez:

A lot of people always spent their own free time to vacation or perhaps go to the outside with them friends and family or their friend. Do you realize? Many a lot of people spent many people free time just watching TV, as well as playing video games all day long. If you wish to try to find a new activity this is look different you can read any book. It is really fun for you personally. If you enjoy the book that you just read you can spent the whole day to reading a book. The book Practical Wildlife Care it is very good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. In case you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore quickly to read this book from a smart phone. The price is not too expensive but this book features high quality.

James Drennan:

People live in this new day time of lifestyle always try to and must have the extra time or they will get wide range of stress from both everyday life and work. So , once we ask do people have extra time, we will say absolutely yes. People is human not a robot. Then we question again, what kind of activity have you got when the spare time coming to an individual of course your answer may unlimited right. Then ever try this one, reading textbooks. It can be your alternative in spending your spare time, the book you have read is Practical Wildlife Care.

Kenneth Connolly:

Beside that Practical Wildlife Care in your phone, it could possibly give you a way to get more close to the new knowledge or facts. The information and the knowledge you will got here is fresh from the oven so don't be worry if you feel like an previous people live in narrow community.
