**Electronic Discovery and Digital Evidence, Cases and Materials (American Casebook Series)** Shira Scheindlin, Daniel Capra

The third edition of the only comprehensive casebook on electronic discovery and evidence, authored by the field's leading authorities, incorporates the 2015 amendments to the Federal Rules of Civil Procedure; updates case law in the field; and expands discussions of cooperation, proportionality, social media, and professional responsibility obligations. Two new chapters have been added, one on the latest search techniques, including Technology-Assisted Review, that all lawyers must understand; and another on emerging issues with the surveillance, search, and seizure of electronically stored information by law enforcement in criminal cases. This casebook is a 'must' for any course in e-discovery, and an important resource for civil procedure, criminal law, evidence, and ethics courses.
